

BATTERY CHARGING CABINET

Secure, Ventilated Charging for Lithium-Ion Batteries & Equipment

The Battery Charging Cabinet provides a controlled, safety-led solution for charging batteries and electrical equipment within workshops, depots, and commercial facilities.

Designed to reduce fire risk while supporting operational efficiency, the range combines integrated safety systems with robust constructio.

Available in two height variants to suit different charging capacities:

Medium - 620mm H

› A compact, single-level charging cabinet ideal for smaller workshops and facilities

Large - 1100mm H

› A taller cabinet offering increased internal height suitable for higher equipment volumes

› **Integrated Fire-Risk Mitigation:** Fitted with smoke detection, power shut-off and technical ventilation to reduce charging-related risk.
› **Controlled Power Management:** High-capacity socket strips designed for simultaneous.
› **Secure Storage:** Lockable cabinet with door-contact switch prevents unauthorised access during operation.
› **Flexible Installation:** Supplied with stacking feet for straightforward positioning in workshops or plant rooms.
› **Specification-Ready Design:** Clearly defined dimensions, electrical load, and safety systems support confident specification within commercial and industrial projects.
› **Automatic Power Disconnection:** Charging stops instantly if heat is detected, or if the cabinet doors are opened

Model Options

Medium - 620mm H

A compact, single-level charging cabinet ideal for smaller workshops and facilities needing dedicated, safe charging infrastructure.

- **External Dimensions:** 800mm W × 660mm D × 620mm H
- **Internal Dimensions:** 730mm W × 530mm D × 450mm H
- **Weight:** 84kg
- **Power Supply:** 1-phase
- **Socket Strip:** 6-way (3500 W, 16 A)
- **Included:** Stacking feet, two smoke detectors, technical ventilation, power shut-off, door-contact switch

Large - 1100mm H

A taller cabinet offering increased internal height and two vertically arranged power strips, ideal for medium-to-large charging requirements.

- **External Dimensions:** 800mm W × 660mm D × 1100mm H
- **Internal Dimensions:** 730mm W × 530mm D × 840mm H
- **Weight:** 135kg
- **Power Supply:** 1-phase
- **Socket Strip:** 2 × 6-way (3500 W, 16 A)
- **Included:** Stacking feet, two smoke detectors, technical ventilation, power shut-off, door-contact switch

Lead Times

1 - 2 Weeks
