10 SPACE MOON CYCLE SHELTER

Practical & Budget Conscious Bike Storage Solution

The 10 Space Moon Cycle Shelter is a practical and budget-conscious storage solution for secure, weather-resistant bike storage. Manufactured in the UK using hot-dipped BS EN ISO 1461:2022 galvanised steel, the shelter is fitted with clear polycarbonate panels that are fire-resistant and anti-vandal, ensuring long-lasting protection in even the most demanding environments. This shelter is ideal for schools, commercial premises, housing developments, and transport hubs. It supports compliance with BREEAM and Secured by Design standards, making it a go-to choice for architects, contractors, and public sector specifiers. This shelter is the perfect solution for locations where durability, safety and design compliance are essential. The Moon Shelter is engineered for straightforward specification, everything is supplied to simplify your design and procurement processes.

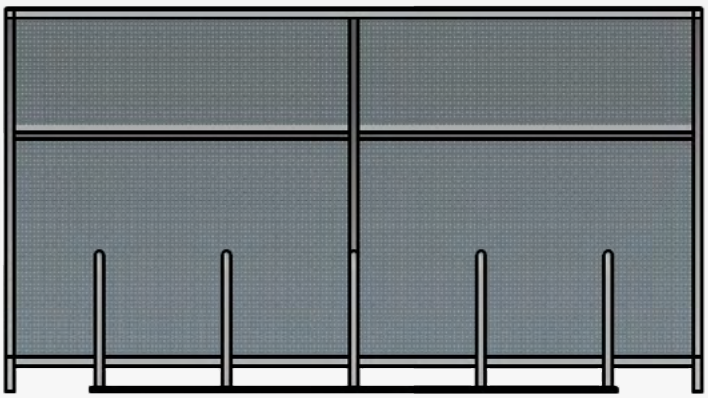

- **10 Space Capacity:** Supplied with a 5-hoop galvanised Toastrack for secure frame and wheel locking
- **Durable Galvanised Steel Frame:** Hot-dipped to BS EN ISO 1461:2022 for long-term corrosion resistance and performance in the UK weather
- **Anti-Vandal Clear Polycarbonate Roof & Panels:** Includes fire-resistant, anti-climb polycarbonate to minimise damage and unauthorised access
- **Optional Powder-Coated Finish:** Available in any RAL colour to suit your architectural scheme
- **BREEAM & Secured by Design Compatible:** Designed with best practice guidance in mind to simplify your specification process
- **Expandable Modular Design:** Easily increase storage capacity by adding further shelter bays
- **Optional Add-Ons:** Upgrade with helmet lockers, PIR solar lighting, or access controlled gates
