

Horizontal 2 Bike Locker Information Sheet

Horizontal 2 Bike Locker

A fantastic space-saving bike locker ideal for your home, garden or office. Offering storage for up to 2 bikes, freeing up valuable internal storage space. Inside this thick, weatherproof, all steel unit is easy storage for up to two cycles. Provided as standard with our NEW 3 point locking system.

The Horizontal 2 Bike Locker is also ideal for commercial projects, where cyclists will appreciate the extra space to store their helmet, bag and other accessories. When installed in places like train stations or offices, it's an extremely convenient bike storage solution as cyclists can leave both their bike and anything else locked away securely. There's no need to worry about carrying helmets or heavy bags.
