

VERTICAL BIKE RACK INFORMATION SHEET

The vertical Bike Rack makes fantastic use of any free wall space; by storing one bike vertically it dramatically reduces the footprint and offers an economical yet effective bike storage solution. The bike is supported by the front tyre, without putting any stress or strain on the wheels. BREEM Compliant.

- Hot dipped galvanised &/or polyester powder coated range of RAL colours
- Also, available in hot dipped galvanised only
- Designed to all frame as well as a front wheel to be secured
