

FIXED PUBLIC BICYCLE PUMP INFORMATION SHEET

Our Fixed Public Bicycle Pump is a great addition to any cycle storage area. This product offers end users convenience in a secure, compact and versatile way. This product facilitates the repair and maintenance of bicycle tyres, and provides additional incentives to cycle and utilize a cycle storage area.

The Fixed Public Bicycle Pump consists of a robust mild steel outer body that can be Galvanised & Polyester Powder Coated in a range of RAL colours. It is a surface mounted product with a single baseplate and consists of a stainless steel piston rod and anti-vandal gauge.

The universal pump head works with both Presta and Schrader valves. The standard hose contains a steel braided core which also helps secure it against vandalism. Longer hoses are available in addition.
