

Cambridge Smoking Shelter Information Sheet

Cambridge Smoking Shelter

Our Cambridge Smoking Shelter offers smokers a designated smoking area and protection from the elements. A sturdy shelter that's fit for all seasons, this product is designed to ensure circulation via its integrated vents.

The shelter can be installed with UV-stable anti-vandal polycarbonate or high-strength PVC Plastisol side panels roofing. We can offer an upgrade to glass side panels and roofing on request.

The galvanised steel framework can also be powder coated on request to create an aesthetic that suits your needs. The shelter's modular design makes it easily extended to various lengths to suit your needs.

Specification

- Polycarbonate side and roof panels (upgrade options available)
- Galvanised steel and powder coating
- Expendable modular design
- 10-Year manufacturer's warranty
- Designed and manufactured in Britain
- Further optional extras include:
 - Integrated guttering
 - PIR lighting systems
 - Benching and ash trays
 - Non-combustible cladding
