

Premium Amazon Eco Enclosure Information Sheet

Premium Amazon Eco Enclosure

Founded on the design principles of our highly successful range of Amazon Eco Shelters, our Premium Amazon Enclosure is a high-end alternative with an upgraded 80mm SHS frame and a 50mm x 20mm sapele timber upgrade as standard.

This product has various customisable options, including swing or sliding gates, electronic locks, guttering, and green sedum roofing.

Utilising our dependable toastrack system to deliver 20 cycle spaces as standard, this shelter can be made-to-order to have a configuration that meets your exacting requirements, accommodating a variety of cycle racks. It can also be provided open-ended or open-fronted.
