

CAMDEN LOCKER

Provide your commuters with a convenient storage space with the Camden Locker

If you've experienced increased active commuting to your premises but cannot meet the demand for end-of-journey storage, then our Camden Locker is the ideal solution.

Integral to any active commute is confidence that you have a secure space to store belongings once you reach your destination. Our Two-Tier Camden Locker can be installed across numerous environments, providing spatially efficient storage for clothes and commuting accessories.

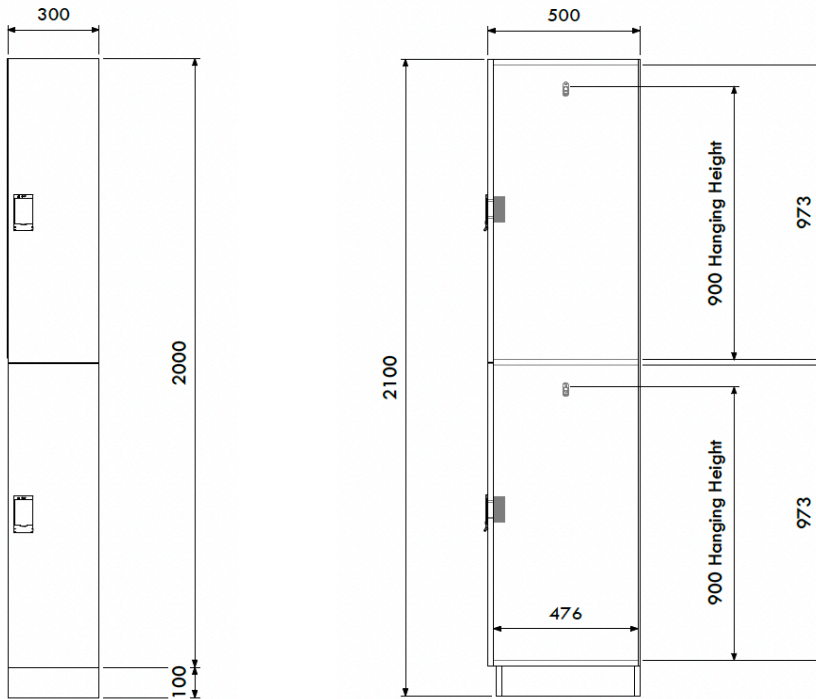

- Standard two-door configuration
- Selection of mechanical and electronic locking system
- Optional ventilated doors and numbering as required
- Wet area-rated construction
- Option for MFC or aluminum powder-coated carcasses (internal)
- High-pressure laminated MDF or SGL doors in a range of colours of finishes
- 2No. clothes hanging rails

PROJECT:

54 Wilson Street

54 Wilson Street sits on one corner of One Crown Place, which has recently become a part of one of the world's most iconic skylines. Found on the boundary between two London neighbourhoods, One Crown Place looks to establish a new, complete destination embracing both City sophistication and Shoreditch individuality.

54 Wilson Street, designed by BGY Architects, hosts 2,250sqm of office space over eight floors. The Bike Storage Company was engaged by contractors Hatmet to develop, manufacture, and install a basement cycle store with end-of-trip facilities.

We were tasked to provide cycle storage and clothing lockers for tenants and visitors who chose active travel as part of their commute. Our Westminster Lockers were a perfect solution for the project. Features front and rear ventilation, moisture-resistant materials, high-pressure laminated MDF doors (which come in a range of colours and finishes), and, most importantly for users, an integrated hardwood bench. We also installed our efficient Two-Tier Cycle Rack system, popular for its ease of use and good use of space.

FINISH OPTIONS

DOOR & CARCASE LAMINATE FINISHES

Unlock Durability and Style with Formica's High-Pressure and Compact Grade Laminates.

Built to Last and Impress, our lockers boast unbeatable resilience against impact, scratches, and abrasion. We can provide you with the ultimate choice for locker solutions with a sleek range of glossy, matte, and wood finishes. Elevate your space today.

This Collection incorporates the following grades of decorative laminate each with its own performance characteristics. This grade conforms to EN438.
