

# LAMINATES - FINISH OPTIONS

## Colours - Formica® Washroom Collection

F2255 MAT  
Polar White

F7949 MAT  
Soft White

F7923 MAT  
Surf

F7927 MAT  
Folkestone

F7961 MAT  
Fog

F7912 MAT  
Storm

F7837 MAT  
Graphite

F2253 MAT  
Diamond Black

F8238 MAT  
Blush

F7845 MAT  
Spectrum Red

F1485 MAT  
Chrome Yellow

F4177 MAT  
Lime

F7879 MAT  
Dusty Jade

F8237 MAT  
Fir

F7884 MAT  
China Blue

F8822 MAT  
Denim

F2828 MAT  
Tropical Blue

F8242 MAT  
Night Sea

## Woods - Formica® Washroom Collection

F5374 MAT  
Elegant Oak

F8853 MAT  
Rural Oak

F1548 MAT  
Mocha Cedar

F8588 MAT  
Nevada Oak

F6932 MAT  
Macchiato Walnut

F5150 MAT  
American Walnut

F1547 MAT  
Noir Cedar

## Sheets layouts\*

\*Woodgrain sheet layouts shown on this page are provided for guidance and represent a 3050x1300mm design area only

## Patterns

F0193 MAT  
Xenon

F8827 MAT  
Sarum Twill

F3734 MAT  
Radon

## Product grades, finish and accreditations.

This Collection incorporates the following grades of decorative laminate each with its own performance characteristics. This grade conforms to EN438.

### Formica® Laminate

Sheets (thin) consisting of layers of wood-based fibers impregnated with thermosetting resins and a surface décor on one side  
 Grade: HPL/EN 438-3 HGP: Horizontal, General Purpose, Postforming high pressure decorative laminate  
 Thickness: 0.7mm (nominal), single sided

#### Available surface finish

Surface Finish Description	Surface Finish Designation	Code
Matte 58	MAT	58

#### General

The information given in this brochure is correct at the time of publication. However, as we have a policy of constant product development and improvement, product specifications may change in the future. Visit [www.formica.com](http://www.formica.com), or [formica.info](http://formica.info) for technical data, as the most up-to-date source of information. Not all certifications stated are applicable or available for all Formica® products. Please check that the product you require is covered by a relevant certification or is suitable for your specific application, in advance of order placement.

#### Colour system notations

NCS® and RAL Classic notations represent the closest match available in the particular system. They may or may not be exact and are provided for guidance only. NCS and RAL Classic notations provided have been established from a standard matt laminate sample. Please note that different surface finishes (texture structure and gloss levels) can have an effect on colour perception. When exact colour information is required, or for cross-material matching (HPL to other materials), please always refer to an actual laminate sample in the specified finish.

#### Light Reflectance Value

Light Reflectance Value (LRV) is a value indicating the proportion of light reflected by a colour, when measured under standard daylight conditions. This guidance uses a scale of 0 - 100, where 0 = black and therefore total light absorption, whereas white = 100 and therefore total light reflection. The main purpose of this value is to indicate measured colour contrast between two surfaces, which need to be readily distinguishable within an environment (under static conditions, a difference of 30 units between two colours is considered adequate). LRVs stated may or may not be exact and are provided for guidance only.

#### Please note

For non-solid colour decors, where there are multiple colours across the design, the stated LRV is an average value taken from multiple measurements across the décor and must be used with caution. The individual colours in a pattern, woodgrain or stone design can differ more than 30 LRV units within the design itself.
