

ISLINGTON LOCKER

Create Practical and Stylish Storage for Shared Spaces

The Islington Locker is a premium, high-density bike locker designed to enhance End of Trip facilities for offices, residential, and commercial spaces in London and the UK. Its compact design maximises space while keeping clutter to a minimum, providing a secure and organised solution for personal belongings, electronics, and cycling gear. The Islington is perfect for architects and specifiers seeking a specification-ready, modern storage solution with integrated USB charging, flexible locking options, and various finish choices. Its robust construction ensures durability in high-traffic areas, while its stylish design complements any environment. Optimised for B2B specifiers, the locker supports active commuting initiatives and creates a user-friendly, safe, and organised space. Fully Made in Britain and BREEAM-compliant, it represents a long-term investment in your facilities' functionality and design appeal.

- › **High-Density Storage:** Ideal for busy communal areas and high-footfall buildings
- › **Secure Locking Options:** Selection of mechanical and electronic locks for maximum safety
- › **Integrated USB Charging:** Two ports per compartment, perfect for e-bikes, e-scooters, and devices
- › **Durable Construction:** High-pressure laminated MDF doors and moisture-resistant base
- › **Customisable Finishes:** Choose from a wide range of colours and finishes to suit any interior
- › **Specification-Ready:** CAD drawings, NBS links, and technical downloads for architects and contractors
- › **Made in Britain:** BSC-manufactured lockers with a 10-year warranty

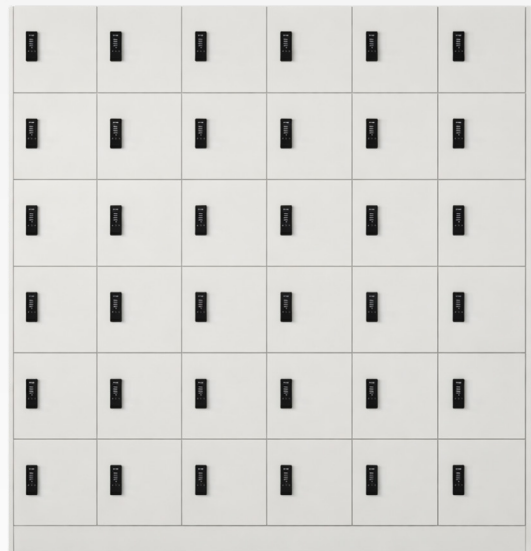

ISLINGTON LOCKER

The Islington Locker is a versatile storage solution designed for a wide range of commercial, residential, and public environments. Its high-density design, secure locking systems, and integrated USB charging ports make it ideal for modern end-of-trip facilities, helping encourage active commuting.

Customisation that Works for You
